

The London Abseil @ The ArcelorMittal Orbit

Covid-19 Procedures

The following measures are being implemented at our abseil in line with government advice on social distancing. Please read these before attending the abseil so you are aware of the relevant procedures that will be in place on the day:

- 1m+ social distancing rule in place at all times between anyone from different households
- Staff will be wearing face coverings and gloves, where required, to adhere to the 1m+ rule
- Staff will have their temperature taken on arrival. If their temperature is above 38 degrees, they will be asked to leave site.
- Staff will be asked to stay at home if displaying symptoms and isolate as per the current Government guidelines
- Abseilers are advised that if they are feeling unwell and/or presenting any Covid-19 symptoms they must not attend the abseil, as per the current Government guidelines
- Abseilers will have their temperature checked by the ArcelorMittal Orbit team on arrival. If their temperature is above 38 degrees, they will be asked to leave site
- Abseilers will be asked to clean/sanitise their hands before touching any equipment
- Abseilers will be provided with gloves to be worn whilst abseiling as per normal procedure
- Abseilers must wear a face covering in all indoor areas whilst on site, this includes in the lift up to abseil platform level and in the indoor spaces at viewing platform level if you decide to visit this space after your abseil
- Abseilers may wear a face covering in outdoor areas providing there is no risk of entanglement with equipment, however this is not compulsory, apart from in indoor areas, as described above
- Face coverings are not compulsory in cases where an individual is exempt on medical grounds. Please be aware that you may be asked for government issued proof of exemption

There is a maximum of 6 abseilers that can book into each session, this is normal procedure but also allows for social distancing to be maintained throughout your abseil experience.

We look forward to welcoming all abseilers to the ArcelorMittal Orbit for a thrilling adventure!

If you have any additional questions relating to this, or anything else, please contact us using the details below.
